CSMC

VOL. 3

FEB. 2024

PG. 1

POLL:

WHICH PATH TO SANDERS IS SHORTER?

POV: You are exiting from Retreat on your way to good ol' SP and are met at the crossroads... personal preference aside, which path is shorter? Left path by Sanders Classroom or right path by New England?

MEET OUR NEW SYS ADMIN, TOMA!

Surprise! If you've been living under a rock and missed the memo about our fantastic new System Administrator, fear not! While you might have overlooked your emails, the CSMC took the liberty of setting aside some quality time this past Wednesday to get better acquainted with the one and only Toma Morris! (CONTINUE TO NEXT PAGE)

WELCOME YOUR NEW CSMC MEMBERS, PABLO AND SHARON!

SELFIES WITH PETE IS BACK!!

The campus renowned selfie contest is back, and all can participate - the next time you run into Prof. Pete, just ask for a selfie and submit it in the link or email below! Winners will be chosen based on creativity (bonus points for costumes).

BREAKING: COLORSTACK COMING TO VASSAR!

ColorStack is a national organization for *Black/Latinx/Indigenous Computer Science students*, and this semester Vassar will become one of over 30 campus chapters across the nation, acting as a branch of VC++! First GB is this **Tuesday at 5 at Chicago LL 102**

THE TOMA INTERVIEW CONTINUED...

Toma's academic journey is a colorful canvas, **majoring in history in Portland, Oregon**, to diving into the field of Electrical Engineering at UT Austin.

Before making their way to Vassar, Toma had already found themselves as a part of the community, as they've **lived in the Poughkeepsie area for the last 3 years**. Beyond the realm of servers and cables, Toma's passions are as diverse as their tech skills.

Picture this: an expert weaver, an **audiobook connoisseur** of the sci-fi realm and a **maestro of calligraphy and photography**. It's not your typical Sys Admin profile, and that's precisely what makes Toma the dynamic force they are.

Now, Toma has some awesome industry experience working as the **Director of Trust and Safety Engineering atHinge (HOW COOL!)**. They're a digital guardian, they led the team who worked tirelessly preventing fraud, harassment, and violence.

So now we ask: **What's their favorite part about Vassar so far?** It's the people. From **updating websites to mentoring** computer science students, Toma's door is always open, beckoning with warmth and expertise.

In the ever-evolving landscape of technology, Toma is not just a System Administrator; **they're a guide** ensuring Vassar remains a digital haven.

So, if you've missed the Toma Morris extravaganza, consider yourself officially in the loop. The CSMC had the pleasure of shedding light on our tech extraordinaire, and now you're in on the secret too!

**WELCOME TO THE TOMA MORRIS ERA AT VASSAR.
IT'S BOUND TO BE EPIC!**
