

Summer 2011 Employment Opportunities:

Instructor and Teaching Assistant

Dear Colleague:

We are writing to let you know about an excellent opportunity for the members in your school or department who might be interested in summer employment as an **Instructor** or **Teaching Assistant** with the Center for Talented Youth (CTY) summer programs. CTY offers challenging academic programs for highly talented elementary, middle, and high school students from across the country and around the world. Information regarding our summer programs can be found at www.cty.jhu.edu/summer.

Why teach for CTY?

- opportunity to teach motivated and talented students a subject they love
- limited class size (maximum of 18 students) ensures a low student-teacher ratio
- all classes are taught by both an instructor and teaching assistant
- opportunity to work in an environment with colleagues who share similar interests
- competitive salary plus room and board at our residential sites

We are currently seeking individuals with expertise in a number of **Computer Science** related subjects:

- Introduction to Robotics ([course description](#))
- Foundations of Programming ([course description](#))
- Fundamentals of Computer Science ([course description](#))
- Data Structures and Algorithms ([course description](#))

Thank you for taking the time to forward this information to qualified students or colleagues at your department or organization. For more information about these positions, site locations, program dates, and access to our online employment application, please contact us via email at ctysummer@jhu.edu, by calling 410-735-6185, or see our website:

- Instructor position: <http://cty.jhu.edu/summer/employment/inst.html>
- Teaching Assistant position: <http://cty.jhu.edu/summer/employment/ta.html>
- Employment with CTY: www.cty.jhu.edu/summer/employment
- Direct access to the application: [click here](#)

Sincerely,

CTY – Summer Programs Math Committee
