Match the calls to the random expressions in the left column with the number or the range of numbers they produce in the right column. For the expressions (a) through (e) in the left column, write a-e to the left of the result that matches the expression evaluation in the right column.

(a) (+ (random 7)(random 8)) _____ numbers in the range 1...8
(b) (random (* 3 3)) _____ numbers in the range 0...13
(c) (random (+ 42 1)) _____ numbers in the set [0, 2, 4, 6]
(d) (add1 (random 8)) _____ numbers in the range 0...8
(e) ((* 2 (random 4)) _____ numbers in the range 0...42
